Addis Abeba, Ethiopia

ABOUT ME

Results-driven Backend Developer with 1.6 years of experience in building scalable, high-performance APIs and backend systems. Proficient in Java Spring Boot, Node.js, Express.js, PostgreSQL, Docker, and Linux, with a strong track record of contributing to large-scale government and banking projects. Passionate about writing clean, efficient code and optimizing backend performance for mission-critical applications.

EDUCATION

Wollega University | 2019 -2023

Bachelor's Degree in Electrical and computer Engineering
Computer Engineering Focus
GPA : 3.44

SKILLS

- **Backend Development:** Java Spring Boot, Java EE, RESTful APIs, node js (basic)
- **Frontend Development:** React.js, Tailwind CSS, ShadCN, Ant Design (AntD), HTML5, CSS3, JavaScript and Typescript
- **Version Control:** Git, GitHub and GitLab
- **Database Management:** MySQL, PostgreSQL
- **UI/UX Design:** Responsive Design, Cross-Browser Compatibility, Figma (basic understanding)
- **Microservices Architecture:** Design and implementation of distributed systems
- **Testing and QA:** Software Testing, Bug Tracking, Quality Assurance Processes
- **Tools and Platforms:** IntelliJ IDEA, Visual Studio Code, Postman, Docker (basic),
- **Soft Skills:** Team Collaboration, Problem-Solving, Project Management, Effective Communication
- **Other Skills:** Familiarity with Agile and Scrum methodologies, Personal UI project development, Video Editing, and youtube content creating, also SEO

PROFESSIONAL EXPERIENCE

Software Developer

Atlas Computer Technology | May 2024 - Present

- Played a key role in the development of a backend system for the Ministry of Revenue project, collaborating closely with team members to ensure robust and efficient solutions.
- Designed and implemented scalable, secure, and high-performing backend architectures using Java Spring Boot and Java EE.
- documents with discretion and maintain their proper organization

Quality Assurance Engineer

Atals Computer Technology. | sep 2023 - may 2024

- Developed a Git management system using React, Tailwind CSS, ShadCN, and Ant Design libraries to streamline version control processes.
- Built and contributed to numerous UI projects, including personal initiatives, showcasing expertise in frontend design and development.
- Conducted software testing to ensure high quality, working closely with developers to identify and resolve issues.

Projects

Ministry of Revenue (MoR) Backend System

- Technologies: Java Spring Boot, MySQL and Postgress
- Collaborated with a team to design and implement a secure and scalable backend system for managing tax and revenue operations.
- Developed RESTful APIs to enable seamless communication between modules and external systems

Git Management System

- Technologies: React.js, Tailwind CSS, Ant Design, ShadCN
- Built multiple UI components and web applications to enhance skills in frontend design and development.
- Experimented with modern libraries and tools to improve usability and responsiveness.
